

## TEORIJA 2 VAJE – višaji in nižaji v dvakratčrtani oktavi

Danes spoznavamo dvakratčrtno oktavo (c2 do c3), ki je nadaljevanje prve oktave (c1 do c2).

Najprej si dobro preberite novo snov, potem pa poskusite rešiti vaje.

The illustration shows a stylized roof with many overlapping, curved tiles in various colors like red, orange, yellow, and blue. Below the roof is a musical staff with a treble clef. There are eight blue circles on the staff, each with a horizontal line underneath it. These circles are labeled with musical note names: c2, d₂, e₂, f₂, g₂, a₂, h₂, and c3 from left to right. Below the staff, the text "POMOŽNE ČRTE" is written in blue, accompanied by a small cartoon spider holding a book.

Pomožne črte uporabimo za zapis tonov, ki jih ne moremo zapisati v notno črtovje.

Tone nad notnim črtovjem zapišemo na ali nad pomožno črto.

o o o e o ≈ ≈ itd.

o e o e o ≈ ≈ itd.

Tone pod notnim črtovjem zapišemo na ali pod pomožno črto.

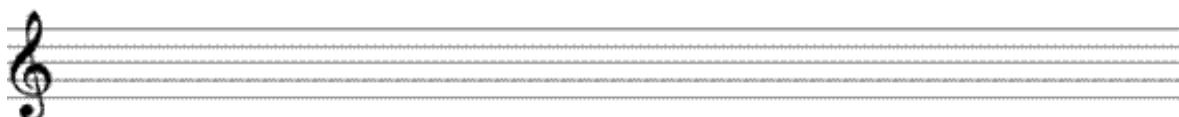

### 1. NAPIŠI IMENA NOT

Two staves of musical notation are shown. The top staff starts with a treble clef and has ten numbered boxes below it for labeling. The notes are: 1. open circle, 2. open circle, 3. circle with a sharp sign, 4. open circle, 5. open circle, 6. circle with a flat sign, 7. open circle, 8. open circle, 9. open circle, 10. circle with a double sharp sign. The bottom staff also starts with a treble clef and has twenty numbered boxes below it for labeling. The notes are: 11. open circle, 12. open circle, 13. circle with a double sharp sign, 14. circle with a double sharp sign, 15. open circle, 16. open circle, 17. circle with a double sharp sign, 18. circle with a double sharp sign, 19. open circle, 20. open circle.

2. NAPIŠI NOTE

a1      c1      fis1      des2      g2      h      es1      ais1      d1      dis2

b1      d2      ges1      cis2      a1      e1      as1      f1      e2      des2

4. NOTNA MATEMATIKA

$$\bullet = \text{♩} + \text{♩} + \text{♩} + \boxed{\phantom{0}}$$

$$\text{♩} = \text{♩} + \boxed{\phantom{0}}$$

$$\bullet = \text{♩} + \text{♩} + \text{♩} - \boxed{\phantom{0}}$$

$$\text{♩} = \bullet - \boxed{\phantom{0}}$$

$$\text{♩} = \text{♩} + \text{♩} - \boxed{\phantom{0}}$$

$$\text{♩} = \bullet - \text{♩} - \boxed{\phantom{0}}$$

Za lažje računanje si lahko pomagate s tabelico trajanja not.

ime	oblika	Trajanje
CELINKA	Prazna glavica, brez vratu	4
POLOVINKA	Prazna glavica, z vratom	2
ČETRTINKA	Polna glavica, z vratom	1
OSMINKA	Polna glavica, z vratom in zastavico	1/2

Kaj pomeni pika ob noti?

Pika noti doda polovico njene vrednosti. Če želimo vedeti, koliko nota s piko traja, moramo njeni vrednosti prišteti še polovico te vrednosti. Primer: četrtinka s piko traja  $1 + \frac{1}{2}$  dobe.
