

## ANGLEŠČINA – SLUŠNO RAZUMEVANJE

1. This time we will practice listening comprehension in English. I invite you to listen carefully the following video tape three times. Between watching write down unknown words. If necessary stop the tape and with dictionary translate new words. After that pick five words and use them in sentences. (Tokrat bomo vadili slušno razumevanje v angleščini. Vabim te, da si najprej trikrat dobro ogledaš naslednji video posnetek in si vmes izpisuješ neznane besede. Po potrebi video ustavljaš in si nato s pomočjo slovarja besede prevedi. Nato si iz posnetka izberi pet besed in jih uporabi v povedih.) <https://www.youtube.com/watch?v=kMML1jkBePQ>

2. Boy on the video tape speaks conversational English and uses some more difficult words, which we translated, so it will be easier for all of us to follow next exercises. (Fant na video posnetku govori v pogovorni angleščini in uporablja tudi težje besede, ki smo jih prevedli, da bomo vsi lažje sledili naslednjim nalogam.)
